Lives Across Cultures: Cross-Cultural Human Development (5th Edition)

By Harry W. Gardiner

Interdisciplinary exploration of cross-cultural human development throughout the lifespan.

Presented in a chronological-within-topics approach, covering the entire lifespan, this text focuses on cultural similarities and differences in human development throughout the world while emphasizing links among theory, research and practical applications. Combining the latest research with vignettes, stories, and personal experiences in their highly-praised, scholarly, yet engaging conversational – and frequently humorous – writing style, the authors make the study of similarities and differences an exciting experience.

Editorial Review

Review

“Covering all of the major developmental topics from cradle to grave, they take the reader through the labyrinth of lives that work and play and, unfortunately, fight through occasional major crises and the vexing problems of growing up. The style and tone of the book is genuinely comfortable. Reading it is like having a friendly dialogue with gentle and caring friends.”

From the Forward by Walter J. Lonner
Western Washington University

“To our knowledge this book has no competition, and is unique ... It is unusual for a book to change a curriculum, but rather than being written to fill a demand for classes in cross-cultural human development, it appears that these courses are being created at various universities because Gardiner and Kozmitzki published this text ... As Lonner writes in the foreword, the field is changing quickly and significantly, and *LAC* is in great hands as Gardiner and Kosmitzki reflect this change in each new edition.”

David W. Shwalb and Barbara J. Shwalb
Southeastern Louisiana University

From the Back Cover

Covering the entire lifespan, this book focuses on cultural contexts throughout the world while emphasizing links between theory, research and practical applications. This book brings a cross-cultural dimension to the study of human development across the lifespan. It focuses on major developmental topics and provides a global and multicultural perspective by introducing the reader to contemporary and classical research. Basic principles and research findings are connected to practical everyday situations in order to enrich one's understanding of and appreciation for development as it occurs in diverse cultures throughout the world. For people interested in cross-cultural issues in the fields of psychology, sociology, anthropology, education or family studies.

About the Author

Harry W. Gardiner

Professor Emeritus at the University of Wisconsin-La Crosse, where he designed and taught courses in cross-cultural psychology, child development, humor in education, and international studies for twenty-seven years. His undergraduate degree is from American International College, in Springfield, Massachusetts; his M.A. is from the University of Hawaii; and his Ph.D. is from Manchester University in England. He has engaged in training, teaching, and research in Europe, Asia, and the United States and has traveled to more than seventy countries.
