**Mystic River** By Dennis Lehane

*"There are threads in our lives. You pull one, and everything else gets affected."*

When they were children, Sean Devine, Jimmy Marcus, and Dave Boyle were friends. But then a strange car pulled up to their street. One boy got into the car, two did not, and something terrible happened — something that ended their friendship and changed all three boys forever.

Twenty-five years later, Sean Devine is a homicide detective. Jimmy Marcus is an ex-con who owns a corner store. And Dave Boyle is trying to hold his marriage together and keep his demons at bay — demons that urge him to do terrible things.

When Jimmy Marcus's daughter is found murdered, Sean Devine is assigned to the case. His personal life unraveling, he must go back into a world he thought he'd left behind to confront not only the violence, of the present but the nightmares of his past. His investigation brings him into conflict with Jimmy Marcus, who finds that his old criminal impulses tempt him to solve the crime with brutal justice. And then there is Dave Boyle, who came home the night Jimmy's daughter died covered with someone else's blood.

While Sean Devine attempts to use the law to return peace and order to the neighborhood, Jimmy Marcus finds his need for vengeance pushing him ever closer to a moral abyss from which he won't be able to return, and Dave's wife, Celeste, sleeps at night with a man she fears may very well be a monster, a monster who fathered her child and hides his true nature from everyone, possibly even himself.

A tense and unnerving psychological thriller, *Mystic River* is also an epic novel of love and loyalty, faith and family, in which people irrevocably marked by the past find themselves on a collision course with the darkest truths of their own hidden selves.

### Editorial Review

#### Amazon.com Review

Ever since blasting onto the literary scene with the Shamus Award-winning *A Drink Before the War*, Dennis Lehane has been the golden boy of noir. His Patrick Kenzie and Angela Gennaro novels are marvels of tight pacing, dialogue so good it gets under your skin and stays there, with dead-on portrayals of working-class Boston neighborhoods. Sure, he's the oft-proclaimed, hard-boiled heir to Hammett and Chandler, but Lehane also takes a page from the Hemingway school of hyper-intense writing. He pares away and pares away until he's left with the absolute essentials--and then those essentials just explode off the page.

In his five Kenzie-Gennaro novels, the detective duo is at the nexus of Lehane's big bang. Darkly funny and just this side of jaded, Angie and Patrick move through Dorchester's bleak streets with an assurance born of familiarity. It's impossible to imagine these streets without the pair, or to imagine the pair away from those streets. *Mystic River*, then, arrives as a bit of a gamble, as Lehane moves from the sharp edges of portraiture to the broader strokes of landscape. No Angie, no Patrick: this neighborhood is on its own. It's not any prettier and certainly no friendlier, and its working-class façade still barely masks the irresistible tug of violent ways, means, and ends.

Twenty-five years ago, Dave Boyle got into a car. When he came back four days later, he was different in a way that destroyed his friendship with Sean Devine and Jimmy Marcus. Now Sean's a cop, Jimmy's a store owner with a prison record and mob connections, and Dave's trying hard to keep his demons safely submerged. When Jimmy's daughter Katie is found murdered, each of the men must confront a past that none is eager to acknowledge. Lehane tugs delicately on the strands that weave this neighborhood together, testing for their strengths and weaknesses; this novel seems as much anthropological case study as thriller.

By turns violent and pensive, *Mystic River* is vintage Lehane. How good is it? You may go in missing Angie and Patrick, but after a few pages you won't even realize they're gone. Lehane's noir is still black magic. --  
*Kelly Flynn*

#### From Publishers Weekly

Lehane ventures beyond his acclaimed private eye series with this emotionally wrenching crime drama about the effects of a savage killing on a tightly knit, blue-collar Boston neighborhood. Written with a sensitivity toward character that exceeds his previous efforts, the story tracks the friendship of three boys from a defining moment in their childhood, when 11-year-old Dave Boyle was abducted off the streets of East Buckingham and sexually molested by two men before managing to escape. Boyle, Jimmy Marcus and Sean Devine grow apart as the years pass, but a quarter century later they are thrust back together when Marcus's 19-year-old daughter, Katie, is murdered in a local park. Marcus, a reformed master thief turned family man, goes through a period of intense grief, followed by a thirst for revenge. Devine, now a homicide cop assigned to the murder, tries to control his old friend while working to make sense of the baffling case, which involves turning over the past as much as it does sifting through new evidence. In time, Devine begins to suspect Boyle, a man of many ghoulish secrets who has led a double life ever since the molestation. Lehane's story slams the reader with uncomfortable images, a beautifully rendered setting and an unnerving finale. With his sixth novel, the author has replaced the graphic descriptions of crime and violence found in his Patrick Kenzie-Angela Gennaro series (*Prayers for Rain*; *Gone, Baby, Gone*) with a more pensive, inward view of life's dark corners. It's a change that garners his themesAregret over life choices, the psychological imprints of childhood, personal and professional compromiseAa richer context and his characters a deeper exploration. Agent, Ann Rittenberg. (Feb. 6) Forecast: Given the excitement in-house at Morrow that this is

Lehane's breakthrough book, and the promotion they're placing behind it, it stands an excellent chance of leaping straight onto the bestseller lists. A one-day laydown, \$250,000 ad-promo and an 11-city author tour, plus a blurb from Michael Connelly designating Lehane as "the heir apparent," should provide the groundwork for explosive sales. Rights have been sold in the U.K., France and Germany, and there will be a large-print edition as well as an audio from Harper Audio.

#### From [The New Yorker](#)

Back in the seventies, two boys from the Flats, wily Jimmy Marcus and sad-eyed Dave Boyle, hung around with Sean Devine, who lived twelve blocks away in what passed for a better neighborhood. This Chandleresque novel really starts when their paths cross again: Sean's a cop, Jimmy's daughter is dead, and Dave's a suspect. Lehane's theme is inevitability: once fate has its markers in place, it doesn't fool around. A sense of foreboding provokes the book's best heart-in-your-mouth effects, but the assignment of blame is clear long before the final pages.
