Borderlands By Brian McGilloway

The corpse of local teenager Angela Cashell is found on the Tyrone- Donegal border, between the North and South of Ireland, in an area known as the borderlands. Garda Inspector Benedict Devlin heads the investigation: the only clues are a gold ring placed on the girl's finger and an old photograph, left where she died. Then another teenager is murdered, and things become further complicated when Devlin uncovers a link between the recent killings and the disappearance of a prostitute twenty-five years earlier -- a case in which he believes one of his own colleagues is implicated. As a thickening snow storm blurs the border between North and South, Devlin finds the distinction between right and wrong, vengeance and justice, and even police-officer and criminal becoming equally unclear. A dazzling and lyrical debut crime novel, *Borderlands* marks the beginning of a compelling new series featuring Inspector Benedict Devlin. 'Brian McGilloway's command of plot and assurance of language make it difficult to believe that *Borderlands* is his debut.' - The Times 'A mystery of labyrinthine complexity' - Sunday Telegraph

Editorial Review

From Publishers Weekly

When the body of 15-year-old Angela Cashell is found straddling the border between the Republic of Ireland and Northern Ireland in McGilloway's assured debut, Garda inspector Benedict Devlin takes charge of the case because he recognizes the victim as a resident of his part of Ireland. The only clues are a gold ring Angela was wearing but no one in her family can identify and an old photograph Devlin discovers amid the flowers left by mourners. Though Devlin and his team first suspect teenage Whitey McKelvey, a member of an itinerant group known as travellers, another body soon turns up along with the same photograph, and Devlin realizes that the case runs much deeper. McGilloway skillfully weaves Irish politics—from the shadow of the IRA in the North to the tensions between the travellers and locals in the South—into his multilayered story. A keen observer, Devlin has just enough flaws to make him an empathetic hero. (*Sept.*)

From Booklist

Starred Review The week before Christmas, a teenage girl is found dead, nearly naked and sprawled half across the border between Northern Ireland and the Republic of Ireland—technically an international boundary. Tensions between North and South have cooled considerably since the days of the Troubles, however, and both police forces work together when crimes cross the seemingly arbitrary boundary. Small-town inspector Ben Devlin has never investigated a murder before, and his progress is hampered by the trust he wants to place in his colleagues and neighbors, even as these same acquaintances seem increasingly likely candidates for murderer. But Devlin perseveres, and with the help of the police in the north, he gradually focuses in on the murderer, even as the winter weather bears down and his family is threatened. Devlin may work slowly, but the pacing of the book never falters, and McGilloway builds suspense gradually but inexorably, as the reader and Devlin race to uncover the murderer's true identity before more people are killed. With a mood and investigative style reminiscent of Hakan Nesser's Inspector Van Veeteren series, and a backstory paralleling the mostly happy home life of Helene Tursten's Detective Inspector Huss, this is an excellent new procedural series, especially notable for its realistic and sensitive portrayal of life in modern Ireland. Essential for mystery collections. --Jessica Moyer

Review

""Borderlands" has me, dare I say, green with envy. It's rare I'm jealous of a debut novel but I'm ferociously so of this stunning work. Devlin, the main character of this new series, is going to join the ranks of Rebus, Resnick, Davenport, and Scudder as one of the reference points of character series. Not only is the writing a sheer blast of dark lyricism but the plot is utterly compulsive. Dammit,"" I muttered, it can't be this good, it is . . . and better. This is not only a wondrous addition to the growing canon of Irish mystery writing, it's a terrific bonus to mystery writing as a whole." ---Ken Bruen, author of "Once Were Cops ""Brian McGilloway's command of plot and assurance of language make it difficult to believe that "Borderlands" is his debut." ---"The Times" (UK) "A mystery of labyrinthine complexity." ---"Sunday Telegraph" (UK) "McGilloway evocatively describes the landscape of the border area . . . and captures small-town rural Ireland. Ben Devlin is an appealing character . . . and the supporting cast are well drawn." ---"Times Literary Supplement" (UK) "Brian McGilloway is a name to keep in mind. He has written a taut, well-paced story with strong characters and an ingenious plot that seizes the reader's attention from page one and holds it to the last sentence." ---"Irish Independent ""McGilloway conveys a believable portrait of a real, troubled, and coping-as-best-they-can population in the new Ireland, with all its contradictions and complexities." ---"International Noir Fiction ""This is an impressive debut, the writing is tight, the plot is complex but well paced, the characters are well drawn...and the resolution was surprising." ---"ReviewingTheEvidence.com

""A gripping thriller."---"The Irish News"

From reader reviews:

Patricia White:

Reading a reserve tends to be new life style in this era globalization. With examining you can get a lot of information that will give you benefit in your life. Along with book everyone in this world can easily share their idea. Guides can also inspire a lot of people. A lot of author can inspire their reader with their story or even their experience. Not only the story that share in the textbooks. But also they write about the ability about something that you need example of this. How to get the good score toefl, or how to teach children, there are many kinds of book that you can get now. The authors in this world always try to improve their ability in writing, they also doing some analysis before they write to their book. One of them is this Borderlands.

Thomas Carlson:

The book with title Borderlands contains a lot of information that you can find out it. You can get a lot of benefit after read this book. This kind of book exist new information the information that exist in this guide represented the condition of the world now. That is important to you to understand how the improvement of the world. This book will bring you in new era of the global growth. You can read the e-book in your smart phone, so you can read that anywhere you want.

James Goldman:

A lot of people always spent their free time to vacation as well as go to the outside with their family or their friend. Were you aware? Many a lot of people spent many people free time just watching TV, or even playing video games all day long. If you need to try to find a new activity that's look different you can read a new book. It is really fun for yourself. If you enjoy the book which you read you can spent the entire day to reading a reserve. The book Borderlands it is quite good to read. There are a lot of people who recommended this book. These people were enjoying reading this book. In the event you did not have enough space to create this book you can buy often the e-book. You can more simply to read this book through your smart phone. The price is not to cover but this book offers high quality.

James Johnson:

Your reading 6th sense will not betray anyone, why because this Borderlands e-book written by well-known writer whose to say well how to make book which might be understand by anyone who also read the book. Written inside good manner for you, leaking every ideas and composing skill only for eliminate your own personal hunger then you still question Borderlands as good book not just by the cover but also with the content. This is one guide that can break don't ascertain book by its protect, so do you still needing another sixth sense to pick that!? Oh come on your looking at sixth sense already told you so why you have to listening to another sixth sense.
