CSA Cases Workbook for the MRCGP By Ellen Welch, Irina Zacharcenkova, Jennifer Lyall

Winner of the British Medical Association Young Authors Award, Highly Commended in the Primary Health Care category, September 2015!

This is a unique resource for trainee GPs written by three GPs who recently passed the CSA having put together these cases as part of their preparation for the exam.

Designed to be used by GP revision groups, the ring-bound pack provides 64 cases structured around the RCGP curriculum statement areas. The book is designed to allow each member of the revision group to act as 'doctor', 'patient' or 'observer' and to take out just the pages they need ahead of the next revision session – this makes the practice consultations as exam-like as possible.

Each case features:

- information for the doctor – this page provides the doctor with a brief summary of their patient
- information for the patient – this page provides all the background information (including ICE, information divulged freely and information only divulged if specifically asked about) to allow the person in your group to 'act' as the patient; on the back of this page are any results and examination findings that you can provide to the doctor if they ask for it appropriately
- marking scheme for the observer – this page provides the observer in your group with a simple checklist of positive and negative descriptors in each of the three domains (data gathering, clinical management and interpersonal)

To help further with revision, each curriculum area is split up into:

- possible cases – lists the cases most likely to come up in the CSA (including emergency and 'special' cases, where there may be an ethical dilemma, an angry patient or scenario which focuses more on consultation skills than clinical content)
- revision notes – these provide the key NICE and SIGN guidelines, along with other helpful references and websites, that the whole group can read ahead of a revision session on that curriculum area

- material for the patient – a list of resources that you could usefully guide the patient towards in the consultation
- practice explanations – topics, tests and procedures that you should be able to describe to the patient in a couple of minutes
- practice examinations – procedures you should be able to undertake confidently

Your revision group needs just a single copy of ***CSA Cases Workbook*** rather than multiple copies of any other book, and no photocopying needed either!

Editorial Review

Review

"We have found this revision book extremely useful. It is part of the MRCGP revision series published by Scion. However, it is quite different to other revision guides out there, as it has more cases and is more clearly laid out in topic sections. The idea of the book is to form a revision group, so one book is bought between several GP registrars." Innovait "The ring-bound format makes it extremely easy to use for revision sessions, allowing you to remove the instructions for the simulator and the marking sheet to give to whichever kind person is acting as your patient. " Pulse

Users Review

From reader reviews:

Patrick Pierce:

The book CSA Cases Workbook for the MRCGP can give more knowledge and information about everything you want. So why must we leave the good thing like a book CSA Cases Workbook for the MRCGP? A few of you have a different opinion about e-book. But one aim that book can give many information for us. It is absolutely right. Right now, try to closer using your book. Knowledge or data that you take for that, you may give for each other; you may share all of these. Book CSA Cases Workbook for the MRCGP has simple shape however, you know: it has great and big function for you. You can look the enormous world by wide open and read a publication. So it is very wonderful.

Arturo Lamb:

Information is provisions for individuals to get better life, information nowadays can get by anyone with everywhere. The information can be a understanding or any news even an issue. What people must be consider when those information which is from the former life are challenging be find than now's taking seriously which one is appropriate to believe or which one the particular resource are convinced. If you have the unstable resource then you buy it as your main information we will see huge disadvantage for you. All those possibilities will not happen inside you if you take CSA Cases Workbook for the MRCGP as your daily resource information.

Nicholas McNeal:

People live in this new moment of lifestyle always try to and must have the free time or they will get large amount of stress from both way of life and work. So , when we ask do people have free time, we will say absolutely sure. People is human not really a huge robot. Then we ask again, what kind of activity do you have when the spare time coming to anyone of course your answer will certainly unlimited right. Then do you ever try this one, reading textbooks. It can be your alternative in spending your spare time, often the book you have read is definitely CSA Cases Workbook for the MRCGP.

Betty Callahan:

Reading a book to get new life style in this year; every people loves to study a book. When you learn a book you can get a great deal of benefit. When you read ebooks, you can improve your knowledge, due to the fact book has a lot of information into it. The information that you will get depend on what sorts of book that you have read. If you would like get information about your study, you can read education books, but if you want to entertain yourself you can read a fiction books, these kinds of us novel, comics, along with soon. The CSA Cases Workbook for the MRCGP provide you with a new experience in looking at a book.
