Editorial Review

From Publishers Weekly

Ratey has produced a valuable resource for people addressing the daily challenges caused by the neurobiological condition of Attention Deficit Hyperactivity Disorder. Symptoms of ADHD include difficulty with organization, focus, and time management. Ratey, a professional ADHD coach who was diagnosed with the disorder herself while in graduate school, provides a set of concrete tools that ADHD adults can use to help themselves traverse both personal and professional situations, though the author emphasizes that her book is not a substitute for diagnosis and treatment. Short sections explaining the biological reasons for the disorder's more exasperating symptoms are contributed by Ratey's husband John, a psychiatrist specializing in treatment of ADHD and co-author of *Driven to Distraction*, a seminal ADHD book. With a nod to her audience, Ratey divides her book into sections that can be absorbed in small increments, including her own struggles with the disorder, her six-step "A.N.S.W.E.R." system, case studies and tips from spouses and employers. For ADHD sufferers, Ratey's book might not be a one-stop remedy but it's an extremely helpful starting place.
