Unitary Representations of Reductive Lie Groups. (AM-118) (Annals of Mathematics Studies) By David A. Vogan

This book is an expanded version of the Hermann Weyl Lectures given at the Institute for Advanced Study in January 1986. It outlines some of what is now known about irreducible unitary representations of real reductive groups, providing fairly complete definitions and references, and sketches (at least) of most proofs.

The first half of the book is devoted to the three more or less understood constructions of such representations: parabolic induction, complementary series, and cohomological parabolic induction. This culminates in the description of all irreducible unitary representation of the general linear groups. For other groups, one expects to need a new construction, giving "unipotent representations." The latter half of the book explains the evidence for that expectation and suggests a partial definition of unipotent representations.

Unitary Representations of Reductive Lie Groups. (AM-118) (Annals of Mathematics Studies) By David A. Vogan **Bibliography**

- Sales Rank: #4114088 in Books
- Brand: Brand: Princeton University Press
- Published on: 1987-10-21
- Released on: 1987-10-21
- Original language: English
- Number of items: 1
- Dimensions: 9.00" h x .80" w x 6.00" l, 1.13 pounds
- Binding: Paperback
- 319 pages

Editorial Review

Users Review

From reader reviews:

Evelyn Blow:

The book Unitary Representations of Reductive Lie Groups. (AM-118) (Annals of Mathematics Studies) give you a sense of feeling enjoy for your spare time. You can utilize to make your capable far more increase. Book can to be your best friend when you getting stress or having big problem with your subject. If you can make reading through a book Unitary Representations of Reductive Lie Groups. (AM-118) (Annals of Mathematics Studies) to become your habit, you can get much more advantages, like add your current capable, increase your knowledge about several or all subjects. You can know everything if you like wide open and read a book Unitary Representations of Reductive Lie Groups. (AM-118) (Annals of Mathematics Studies). Kinds of book are several. It means that, science guide or encyclopedia or other people. So , how do you think about this guide?

Toni Bays:

Now a day people who Living in the era just where everything reachable by connect to the internet and the resources within it can be true or not involve people to be aware of each details they get. How individuals to be smart in having any information nowadays? Of course the correct answer is reading a book. Looking at a book can help individuals out of this uncertainty Information particularly this Unitary Representations of Reductive Lie Groups. (AM-118) (Annals of Mathematics Studies) book as this book offers you rich data and knowledge. Of course the information in this book hundred percent guarantees there is no doubt in it you probably know this.

Ann Strickland:

Unitary Representations of Reductive Lie Groups. (AM-118) (Annals of Mathematics Studies) can be one of your nice books that are good idea. Many of us recommend that straight away because this publication has good vocabulary that can increase your knowledge in language, easy to understand, bit entertaining but nevertheless delivering the information. The article writer giving his/her effort to set every word into pleasure arrangement in writing Unitary Representations of Reductive Lie Groups. (AM-118) (Annals of Mathematics Studies) yet doesn't forget the main position, giving the reader the hottest and also based confirm resource information that maybe you can be one among it. This great information can easily drawn you into completely new stage of crucial pondering.

Lawrence Shults:

What is your hobby? Have you heard that question when you got scholars? We believe that that concern was given by teacher on their students. Many kinds of hobby, Every individual has different hobby. And also you know that little person such as reading or as reading through become their hobby. You must know that reading is very important and also book as to be the point. Book is important thing to provide you knowledge, except your current teacher or lecturer. You see good news or update with regards to something by book. Different categories of books that can you go onto be your object. One of them are these claims Unitary Representations of Reductive Lie Groups. (AM-118) (Annals of Mathematics Studies).
