**Neuromusculoskeletal Examination and Assessment: A Handbook for Therapists, 4e (Physiotherapy Essentials)** By Nicola J. Petty DPT MSc GradDipPhys FMACP FHEA

Now in its fourth edition, this core textbook continues to provide a comprehensive, systematic guide to the examination and assessment of patients with neuromusculoskeletal dysfunction. The new edition continues with Nicola Petty at the helm but she is now joined by a reputable team of specialized clinicians and academics who have contributed to individual chapters.

*Neuromusculoskeletal Examination and Assessment* focuses on the development of technical and clinical reasoning skills involved in differential diagnosis of joint, nerve and muscle tissues. It is designed for physiotherapy/manual therapy students and their teachers but is also ideal for those in the first years of their practice as an educational support for patient care.

- Provides a logical approach to patient examination to enhance clinical reasoning
- Presents key concepts of leading therapists and researchers in the field of manual therapy
- Emphasizes a patient-centred approach
- Templated step-by-step sequence of illustrations and text creates an accessible tool for use in teaching and practice
- New 2-colour drawings and photographs visually demonstrate techniques
