Editorial Review

Review

Patrick E. Simon, Northwestern University Feinberg School of Medicine, Doody's Review Service, (February 2011): "This is an excellent review of the major topics in otolaryngology, effective for preparation for in-service examination and board review. What is best about this broad overview is its organization, its systematic approach, and its comprehensiveness. Unique features are the glossary and appendixes. The attempt to encompass the entire specialty in a pocket guide could be considered a shortcoming. This is ultimate study resource for boards and in-service preparation." L.M Flood, Middlesbrough, UK, The Journal of Laryngology & Otology, (November 2011): "...This edition offers a much expanded section on sleep medicine and surgery...In all, this is a very well done revision aid...and is certainly good value."
