Studies on Characterization and Treatment of Textile Mill Wastewater: Textile Wastewater, Characterization, Treatment, Adsorption, Coagulation
By Himanshu Patel, R. T. Vashi, B. N. Oza

The textile industry is one of the major sources of large volumes of wastewater, especially from dyeing and finishing processes. Common contaminants in textile wastewater include materials containing biochemical oxygen demand and chemical oxygen demand, suspended solids, color and other soluble inorganic and organic substances. This book is packed with information about sources and hazardous effect of textile wastewater. Research work carried out and in progress all round world by different researchers are included. Details description for characterization and adsorptive treatment of textile wastewater using charcoal (activated and commercial grade) and natural materials (Bentonite, Fuller's earth, China clay and Zeolite) for removal of COD, BOD, TDS and colour are mentioned. These data are tried to fit with Freundlich and Langmuir adsorption isotherm model for designing and understanding an adsorption system. It demonstrated the usage of chemical coagulants like aluminum sulphate, potash alum and (Ferrous sulphate + Hydrogen peroxide) as well as chemical precipitants, lime and lime-soda, for treatment of textile wastewater.

Editorial Review

About the Author

Dr. Himanshu Patel-Doctor of Philosophy (Ph.D.) in Environmental Science-Area of Interest:

Characterization and treatment of textile wastewater using adsorption and coagulation.-Research Publication: 20 Nos.-Conference-Workshop: 10 Nos.

Users Review

From reader reviews:

Nancy Smith:

The book Studies on Characterization and Treatment of Textile Mill Wastewater: Textile Wastewater, Characterization, Treatment, Adsorption, Coagulation make you feel enjoy for your spare time. You can utilize to make your capable more increase. Book can to get your best friend when you getting stress or having big problem using your subject. If you can make reading through a book Studies on Characterization and Treatment of Textile Mill Wastewater: Textile Wastewater, Characterization, Treatment, Adsorption, Coagulation for being your habit, you can get more advantages, like add your personal capable, increase your knowledge about many or all subjects. You are able to know everything if you like open and read a reserve Studies on Characterization and Treatment of Textile Mill Wastewater: Textile Wastewater, Characterization, Treatment, Adsorption, Coagulation. Kinds of book are several. It means that, science reserve or encyclopedia or other folks. So , how do you think about this e-book?

Robert Jenkins:

The book Studies on Characterization and Treatment of Textile Mill Wastewater: Textile Wastewater, Characterization, Treatment, Adsorption, Coagulation can give more knowledge and also the precise product information about everything you want. Exactly why must we leave a good thing like a book Studies on Characterization and Treatment of Textile Mill Wastewater: Textile Wastewater, Characterization, Treatment, Adsorption, Coagulation? Some of you have a different opinion about publication. But one aim which book can give many facts for us. It is absolutely correct. Right now, try to closer with your book. Knowledge or details that you take for that, it is possible to give for each other; it is possible to share all of these. Book Studies on Characterization and Treatment of Textile Mill Wastewater: Textile Wastewater, Characterization, Treatment, Adsorption, Coagulation has simple shape but the truth is know: it has great and large function for you. You can look the enormous world by open up and read a book. So it is very wonderful.

Paula Cofield:

Exactly why? Because this Studies on Characterization and Treatment of Textile Mill Wastewater: Textile Wastewater, Characterization, Treatment, Adsorption, Coagulation is an unordinary book that the inside of

the reserve waiting for you to snap the idea but latter it will zap you with the secret the item inside. Reading this book beside it was fantastic author who have write the book in such incredible way makes the content within easier to understand, entertaining means but still convey the meaning thoroughly. So , it is good for you for not hesitating having this any longer or you going to regret it. This phenomenal book will give you a lot of rewards than the other book have such as help improving your talent and your critical thinking method. So , still want to delay having that book? If I have been you I will go to the e-book store hurriedly.

Hayden Wolfe:

Book is one of source of expertise. We can add our expertise from it. Not only for students but native or citizen will need book to know the change information of year to be able to year. As we know those textbooks have many advantages. Beside we add our knowledge, could also bring us to around the world. By the book Studies on Characterization and Treatment of Textile Mill Wastewater: Textile Wastewater, Characterization, Treatment, Adsorption, Coagulation we can have more advantage. Don't you to be creative people? To be creative person must choose to read a book. Just simply choose the best book that suitable with your aim. Don't end up being doubt to change your life with that book Studies on Characterization and Treatment of Textile Mill Wastewater: Textile Wastewater, Characterization, Treatment, Adsorption, Coagulation. You can more appealing than now.
