Editorial Review

Review

About the Unidos Approach to Achieving Communicative Goals

“I like the idea of individualized online learning and assessment and freeing time for more communication activities so students can **‘use’ the language more and not just ‘talk’ about it...** The student is given ample activities to practice vocabulary, grammar, and learn about the Hispanic culture.” Luis Latoja, Columbus State Community College

“Unidos is a truly comprehensive program that best integrates the technology supported online practices with in-class communicative and theme-based activities with culture-rich content to **develop students’ abilities to communicate in the target language.**” An Chung Cheng, University of Toledo

About the Individualized Tools to Manage Differing Proficiency Levels

“The benefits are tremendous. **It caters to all learning styles.** No student would be left out. Students will be able to take advantage in their learning through this approach.” Frances Alpren, Vanderbilt University

“The interactive nature of the exercises makes the learning experience outside the classroom **more individualized**, more interesting, and, therefore, **more effective.**” Lea Ramsdell, Towson University

About the Focus on Achieving Consistent Learning Outcomes

“This is a GREAT part of the chapter. It isn’t in the margin. It isn’t an aside. It is front and center, and clearly stated: **Here is what you’ll be doing and this is how you will know if you ‘got it’**”. Elizabeth Calvera, Virginia Tech University

“I like that there is a distinction between objectives, which are what a student will “learn” with his or her brain as they memorize vocabulary and grammar points, **but the outcomes describe the meaningful contexts in which the student can actually ‘acquire’** the ability to communicate without thinking through the various grammar points and vocabulary.” Janie McNutt, Texas Tech University
