Editorial Review

About the Author
Sylvain Ratabouil is a confirmed IT consultant experienced with Java and C++ technologies. He worked in his earlier years in the development of control centers for the space industry at Communication & Systemes. He then got involved in Aeronautic industry projects at Valtech Technologies, where he now takes part in the digital revolution. Sylvain earned a Masters degree from the IUP ISI curriculum at Paul Sabatier University in Toulouse and an MSC in Computer Science from Liverpool University. As a technology lover, he is passionate about mobile technologies and cannot live without his Android smart-phone.

Users Review

From reader reviews:

Matthew Lyons:

What do you about book? It is not important with you? Or just adding material when you need something to explain what your own problem? How about your free time? Or are you busy person? If you don't have spare time to complete others business, it is give you a sense of feeling bored faster. And you have spare time? What did you do? Everybody has many questions above. They must answer that question mainly because just their can do that. It said that about e-book. Book is familiar in each person. Yes, it is suitable. Because start from on guardería until university need this kind of Android NDK Beginner's Guide to read.

Herbert White:
