Bayesian Multivariate Time Series Methods for Empirical Macroeconomics (Foundations and Trends(r) in Econometrics) By Gary Koop, Dimitris Korobilis

Bayesian Multivariate Time Series Methods for Empirical Macroeconomics provides a survey of the Bayesian methods used in modern empirical macroeconomics. These models have been developed to address the fact that most questions of interest to empirical macroeconomists involve several variables and must be addressed using multivariate time series methods. Many different multivariate time series models have been used in macroeconomics, but Vector Autoregressive (VAR) models have been among the most popular. Bayesian Multivariate Time Series Methods for Empirical Macroeconomics reviews and extends the Bayesian literature on VARs, TVP-VARs and TVP-FAVARs with a focus on the practitioner. The authors go beyond simply defining each model, but specify how to use them in practice, discuss the advantages and disadvantages of each and offer tips on when and why each model can be used.

Editorial Review

Users Review

From reader reviews:

Darren Billups:

The book Bayesian Multivariate Time Series Methods for Empirical Macroeconomics (Foundations and Trends(r) in Econometrics) can give more knowledge and information about everything you want. So why must we leave the great thing like a book Bayesian Multivariate Time Series Methods for Empirical Macroeconomics (Foundations and Trends(r) in Econometrics)? A few of you have a different opinion about guide. But one aim in which book can give many details for us. It is absolutely right. Right now, try to closer together with your book. Knowledge or information that you take for that, you can give for each other; you can share all of these. Book Bayesian Multivariate Time Series Methods for Empirical Macroeconomics (Foundations and Trends(r) in Econometrics) has simple shape but the truth is know: it has great and massive function for you. You can look the enormous world by wide open and read a e-book. So it is very wonderful.

Emilio Lutz:

Exactly why? Because this Bayesian Multivariate Time Series Methods for Empirical Macroeconomics (Foundations and Trends(r) in Econometrics) is an unordinary book that the inside of the reserve waiting for you to snap that but latter it will shock you with the secret the idea inside. Reading this book adjacent to it was fantastic author who also write the book in such incredible way makes the content within easier to understand, entertaining method but still convey the meaning entirely. So , it is good for you for not hesitating having this anymore or you going to regret it. This phenomenal book will give you a lot of benefits than the other book have got such as help improving your ability and your critical thinking technique. So , still want to delay having that book? If I ended up you I will go to the e-book store hurriedly.

Elizabeth Pipkin:

Your reading sixth sense will not betray you actually, why because this Bayesian Multivariate Time Series Methods for Empirical Macroeconomics (Foundations and Trends(r) in Econometrics) guide written by well-known writer who really knows well how to make book that could be understand by anyone who else read the book. Written in good manner for you, still dripping wet every ideas and writing skill only for eliminate your hunger then you still uncertainty Bayesian Multivariate Time Series Methods for Empirical Macroeconomics (Foundations and Trends(r) in Econometrics) as good book not just by the cover but also by content. This is one e-book that can break don't judge book by its protect, so do you still needing an additional sixth sense to pick this specific!? Oh come on your examining sixth sense already said so why you have to listening to one more sixth sense.

Siobhan Wilcox:

In this period of time globalization it is important to someone to acquire information. The information will make professionals understand the condition of the world. The health of the world makes the information easier to share. You can find a lot of referrals to get information example: internet, newspaper, book, and soon. You will observe that now, a lot of publisher that will print many kinds of book. The particular book that recommended to your account is Bayesian Multivariate Time Series Methods for Empirical Macroeconomics (Foundations and Trends(r) in Econometrics) this guide consist a lot of the information in the condition of this world now. This kind of book was represented how does the world has grown up. The language styles that writer use to explain it is easy to understand. Typically the writer made some investigation when he makes this book. That's why this book suited all of you.
