Conceptions of Truth By Wolfgang Künne

Truth is one of the most debated topics in philosophy; Wolfgang Künne presents a comprehensive critical examination of all major theories, from Aristotle to the present day. He argues that it is possible to give a satisfactory 'modest' account of truth without invoking problematic notions like correspondence, fact, or meaning. The clarity of exposition and the wealth of examples will make *Conceptions of Truth* an invaluable and stimulating guide for advanced students and scholars.

Editorial Review

Review

‘Review from previous edition ... it would be difficult to find a more comprehensive treatment of its subject. The book excels not only in this respect but also in clarity and thoroughness of exposition, and in the generosity, even chivalry, with which rejected views are treated - though they are dispatched no less decisively for that. It would be folly to claim, on behalf of any work on a major topic of philosophical contention, that it is a definitive treatment of its subject. But *Conceptions of Truth* seems to me to come as close to this merely regulative ideal as any work known to me.’

P. F. Strawson, *Times Literary Supplement*

‘... thorough, clear, and well-argued . . . In its scope and clarity the book should rightly become the standard text for an introductory graduate seminar on truth. Anyone new to the topic will do well to turn to it, and the expert will benefit both from Kunne's setting of the issues and from his detailed contributions ... I recommend *Conceptions of Truth* most highly.’

Douglas Patterson, *Notre Dame Philosophical Reviews*

About the Author

Wolfgang Künne is at University of Hamburg.

Users Review

From reader reviews:

Wanda Matthews:

In this 21st one hundred year, people become competitive in every way. By being competitive today, people have do something to make these people survives, being in the middle of the actual crowded place and notice by surrounding. One thing that often many people have underestimated the item for a while is reading. Yes, by reading a guide your ability to survive raise then having chance to stand than other is high. For yourself who want to start reading the book, we give you this kind of *Conceptions of Truth* book as nice and daily reading book. Why, because this book is more than just a book.

Richard Tipton:

Information is provisions for folks to get better life, information presently can get by anyone in everywhere. The information can be a information or any news even a huge concern. What people must be consider any time those information which is within the former life are difficult to be find than now could be taking seriously which one is acceptable to believe or which one the resource are convinced. If you get the unstable resource then you understand it as your main information you will have huge disadvantage for you. All of those possibilities will not happen with you if you take *Conceptions of Truth* as the daily resource information.
