**Statistics for the Behavioral Sciences (Available Titles Aplia)** By Frederick J Gravetter, Larry B. Wallnau

By far the best-selling introduction to statistics for students in the behavioral and social sciences, this text continues to offer straightforward instruction, accuracy, built-in learning aids, and real-world examples. The goal of **STATISTICS FOR THE BEHAVIORAL SCIENCES**, 8th Edition is to not only teach the methods of statistics, but also to convey the basic principles of objectivity and logic that are essential for science and valuable in everyday life. Authors Frederick Gravetter and Larry Wallnau help students understand statistical procedures through a conceptual context that explains why the procedures were developed and when they should be used. Students have numerous opportunities to practice statistical techniques through Learning Checks, examples, step-by-step Demonstrations, and problems. A strong ancillary package includes PowerLecture™, which contains lecture slides, JoinIn™ Student Response System content, and a computerized test bank; Enhanced WebAssign, a complete and easy-to-use homework management system; WebTutor™; an Instructor's Manual/TestBank, plus other online and print resources.

## **About This Edition**

From the Publisher

### **New Features**

- The authors continue to refine and improve each edition, and this one is no exception. Content changes include an expanded discussion of continuous and discrete variables (Chapter 1), a new discussion relating measures of variability to the scales of measurement introduced in Chapter 1 (Chapter 4), and expanded coverage of z-scores, including increased emphasis on the definition and concept of z-scores rather than formulas (Chapter 5).
- Chapters 13 through 15 include greater emphasis on concepts and less on computation, and a significantly expanded Chapter 17 includes new material on the interpretation of multiple regression and partial correlations.
- Research examples have been updated throughout, and end-of-chapter problems have been extensively revised for currency and improved clarity.
- The chapter-opening Preview sections have been revised to emphasize the fact that each new statistical technique is intended to serve a specific purpose or solve a specific problem.
- The step-by-step Demonstration problems at the end of each chapter, which walk users through statistical procedures in a variety of ways, have been simplified to focus on the content of the chapter rather than tedious computations.

### **Additional Features**

- *Conceptual context:* To help make learning statistics as simple as possible for users who may be intimidated by the subject, statistical formulas are presented in both standard mathematical notation and in everyday language, with explanations of how and why formulas are used.
  - *APA reporting guidance:* In the Literature sections, which appear in nearly every chapter, demonstrate how statistical results (e.g., for the mean and the standard deviation, t tests, and independent-measures tests) are reported in APA style and explain the notation and jargon used.
  - *Helpful visuals:* Summary charts and graphs throughout the text are lauded by instructors and users. For example, a Statistics Organizer at the end of the text provides a decision tree to guide users to appropriate statistical procedures within the text.
-

### About the Author

Frederick J Gravetter is Professor Emeritus of Psychology at The College at Brockport, State University of New York College. While teaching at Brockport, he specialized in statistics, research design, and cognitive psychology. Dr. Gravetter received his Bachelor's degree in mathematics from M.I.T. and his Ph.D. in psychology from Duke University. In addition to publishing several research articles, Dr. Gravetter is co-author of the best-selling STATISTICS FOR THE BEHAVIORAL SCIENCES, 9th Edition, ESSENTIALS OF STATISTICS FOR THE BEHAVIORAL SCIENCES, 8th Edition, and (with Lori-Ann B. Forzano) RESEARCH METHODS FOR THE BEHAVIORAL SCIENCES, 5th Edition.

Larry B. Wallnau is Professor Emeritus of Psychology at the State University of New York College at Brockport. The recipient of grants and awards in both research and teaching, Dr. Wallnau has published numerous research articles primarily on the effect of psychotropic drugs. With Frederick J Gravetter, he has co-authored previous editions of STATISTICS FOR THE BEHAVIORAL SCIENCES, now in its tenth edition, and ESSENTIALS OF STATISTICS FOR THE BEHAVIORAL SCIENCES, now in its eighth edition.

## Users Review

### From reader reviews:

#### Benjamin Hoffman:

Book is definitely written, printed, or descriptive for everything. You can realize everything you want by a guide. Book has a different type. As you may know that book is important thing to bring us around the world. Adjacent to that you can your reading talent was fluently. A book Statistics for the Behavioral Sciences (Available Titles Aplia) will make you to become smarter. You can feel considerably more confidence if you can know about almost everything. But some of you think that open or reading a new book make you bored. It's not make you fun. Why they can be thought like that? Have you seeking best book or suitable book with you?

#### Neil McNatt:

In this period globalization it is important to someone to acquire information. The information will make a professional understand the condition of the world. The fitness of the world makes the information much easier to share. You can find a lot of sources to get information example: internet, newspapers, book, and soon. You can observe that now, a lot of publisher which print many kinds of book. The actual book that recommended to you personally is Statistics for the Behavioral Sciences (Available Titles Aplia) this publication consist a lot of the information with the condition of this world now. This particular book was represented how do the world has grown up. The terminology styles that writer use for explain it is easy to understand. The particular writer made some study when he makes this book. Here is why this book acceptable all of you.

**Lawrence Pomerleau:**

As we know that book is vital thing to add our knowledge for everything. By a reserve we can know everything we wish. A book is a list of written, printed, illustrated or maybe blank sheet. Every year has been exactly added. This e-book Statistics for the Behavioral Sciences (Available Titles Aplia) was filled with regards to science. Spend your extra time to add your knowledge about your research competence. Some people has diverse feel when they reading any book. If you know how big benefit of a book, you can feel enjoy to read a e-book. In the modern era like currently, many ways to get book that you just wanted.

**Julie Long:**

Many people said that they feel uninterested when they reading a guide. They are directly felt that when they get a half elements of the book. You can choose the book Statistics for the Behavioral Sciences (Available Titles Aplia) to make your reading is interesting. Your skill of reading ability is developing when you like reading. Try to choose straightforward book to make you enjoy you just read it and mingle the sensation about book and studying especially. It is to be 1st opinion for you to like to open up a book and read it. Beside that the guide Statistics for the Behavioral Sciences (Available Titles Aplia) can to be your brand new friend when you're truly feel alone and confuse in what must you're doing of this time.
