**The Law of the Sea** By Robin Churchill, Vaughan Lowe

*The Law of the Sea* quickly established itself as the standard work on the subject: authoritative, balanced and readable.

This new Third Edition has been completely revised and updated to cover the many developments that have occurred since publication of the second edition in 1988, among the most notable of which is the entry into force in 1994 of the UN Convention on the Law of the Sea. Written so as to be intelligible to all concerned with maritime affairs, the book has proved particularly valuable to international lawyers and those taking specialist courses in the law of the sea and maritime studies.

The aim of the third edition of this book remains broadly the same as that of the first two editions, namely to provide an introduction to the law of the sea, surveying not only the 1982 United Nations Convention on the Law of the Sea but also the customary and conventional law which supplements it.

Since the previous edition of this book was published in 1988, much has happened in the law of the sea. Most notably, the 1982 Convention has entered into force and is now widely ratified. In addition a number of important multilateral treaties have been concluded (including the two Agreements of 1994 and 1995 relating to the implementation of the Convention), there have been several judgments by international courts and tribunals, and there has been a vast amount of bilateral treaty-making, national legislation and other forms of State practice. This new edition has been completely revised and extensively rewritten, although the basic structure of the book remains unchanged.

This book is concerned with the public international law of the sea - that is to say, with the rules and principles that bind States in their international relations concerning maritime matters. Accordingly, it does not discuss, except incidentally, the rules of private maritime law, which concern such matters as marine insurance, carriage of goods by sea and maritime liens; nor does it provide a survey of the municipal law of the United Kingdom, or of any other country, relating to the law of the sea. Furthermore, it is concerned with the laws of peace and not with the matters that have traditionally been considered under the heading of the laws of war, and consequently topics such as maritime neutrality and prize law fall beyond its scope. Nonetheless, this leaves a

considerable body of law within the purview of the book.

The treatment of the subject falls into two broad divisions. First, we take each of the major maritime zones recognized in contemporary international law, and explain the rules presently applicable to that zone against the background of the main stages of the historical development of those rules. Increasingly, however, the law of the sea is being developed along functional, rather than zonal, lines. For example, whereas the 1958 United Nations Conference on the Law of the Sea concentrated mainly on producing a framework of rules governing States' rights and duties in the territorial sea, continental shelf and high seas, many of the more recent international agreements have been concerned not with particular zones but with particular uses of the seas, such as pollution, fishing (which was in fact also the subject of one of the conventions produced by the 1958 conference) and navigation. We have, therefore, thought it necessary, in order to bring together the many rules of international law relating to the various uses of the seas, to provide separate surveys of each of the main activities carried out in the seas. These functional surveys appear in the later chapters of the book.

Although the international law of the sea is in principle limited in its application to States and other entities having interna

#### About the Author

**Robin Churchill** has been a member of staff at the University of Wales, Cardiff Law School since 1977 and is currently a Professor and Director of the LL.M in Legal Aspects of Marine Affairs. Before he came to Cardiff he was a research officer in international law at the British Institute of International and Comparative Law. From 1983-84 he was a visiting lecturer at the University of Tromso, Norway. His main research interests are the law of the sea and international environmental law, on both of which he has written widely. His books include *Marine Management in Disputed Areas: The Case of the Barents Sea* (with G. Ulfstein) and *EEC Fisheries Law*. He has published numerous articles in academic journals. Among his academic activities outside the Law School, Professor Churchill is a member of the editorial boards of the *International Journal of Marine and Coastal Law* and the *Journal of International Wildlife Law and Policy* and a member of the Legal Affairs Committee of the Welsh Centre for International Affairs. He has also acted as a consultant/adviser to various environmental and fishermen's organizations.

**Vaughan Lowe** is the Chichele Professor of Public International Law and a Fellow of All Souls College, University of Oxford. He was formerly Reader in International Law and a Fellow of Corpus Christi College in the University of Cambridge and has taught at the Universities of Cardiff and Manchester and in the USA. He practices as a barrister from Essex Court Chambers, London. He has advised governments and corporations on matters of international law, and is the author of many books and articles on the subject, of which the most recent is *The Settlement of International Disputes* (OUP, 1999; with John Collier).

### Users Review

#### From reader reviews:

**Kathryn Mullins:**

Do you have favorite book? In case you have, what is your favorite's book? Book is very important thing for us to find out everything in the world. Each e-book has different aim or perhaps goal; it means that e-book has different type. Some people feel enjoy to spend their time and energy to read a book. These are reading whatever they have because their hobby is definitely reading a book. How about the person who don't like reading through a book? Sometime, person feel need book whenever they found difficult problem as well as exercise. Well, probably you will want this The Law of the Sea.

**Cesar Ford:**

A lot of people always spent all their free time to vacation or even go to the outside with them household or their friend. Are you aware? Many a lot of people spent many people free time just watching TV, or playing video games all day long. If you wish to try to find a new activity honestly, that is look different you can read a new book. It is really fun to suit your needs. If you enjoy the book that you simply read you can spent the whole day to reading a book. The book The Law of the Sea it is quite good to read. There are a lot of those who recommended this book. They were enjoying reading this book. Should you did not have enough space to create this book you can buy the e-book. You can m0ore very easily to read this book from your smart phone. The price is not too costly but this book possesses high quality.

**Macie Tiffany:**

People live in this new moment of lifestyle always attempt to and must have the extra time or they will get large amount of stress from both daily life and work. So , whenever we ask do people have spare time, we will say absolutely indeed. People is human not a robot. Then we inquire again, what kind of activity do you possess when the spare time coming to an individual of course your answer may unlimited right. Then ever try this one, reading books. It can be your alternative throughout spending your spare time, often the book you have read is definitely The Law of the Sea.

**William Jones:**

Many people spending their time period by playing outside using friends, fun activity having family or just watching TV all day long. You can have new activity to pay your whole day by reading a book. Ugh, you think reading a book can definitely hard because you have to take the book everywhere? It ok you can have the e-book, having everywhere you want in your Touch screen phone. Like The Law of the Sea which is getting the e-book version. So , try out this book? Let's notice.
