## **Editorial Review**

### **Review**

'The authors have developed a carefully structured presentation that walks readers through clear, pragmatic explanations. The extensive topical coverage seems useful for technical professionals new to computer networking and for nontechnical professionals who require some understanding of data and computer communications. This book is highly recommended to its stated audience. It would also be valuable as a reference for the emerging class of network-literate computer hobbyists and for undergraduate and graduate students in data communications and networking.' - Computing Reviews

### **From the Publisher**

The text can also be used as a supplemental source for those who have a working knowledge of computing but lack an understanding of the fundamental concepts and theoretical underpinnings of networks. Finally, the text can be used as a basic instructional book for undergraduate or graduate networking students. Illustrations, tables, and special sidebars are included to help develop further understanding.

### **About the Author**

William M. Hancock, PhD, CISSP, CISM, is VP of Security and Chief Security Officer of Cable & Wireless, one of the largest telecom and hosting companies in the world. He has over 30 years of experience in networking, security and related technologies and is the author of many books and articles on security, networking and technology strategy.

## **Users Review**

### **From reader reviews:**

#### **James Blouin:**

What do you regarding book? It is not important together with you? Or just adding material when you need something to explain what the ones you have problem? How about your free time? Or are you busy individual? If you don't have spare time to accomplish others business, it is make you feel bored faster. And you have free time? What did you do? Everyone has many questions above. They should answer that question because just their can do that will. It said that about guide. Book is familiar on every person. Yes, it is correct. Because start from on jardín de infancia until university need that Networking Explained to read.

#### **Crystal Dewitt:**

Here thing why that Networking Explained are different and reliable to be yours. First of all reading a book is good however it depends in the content of it which is the content is as scrumptious as food or not. Networking Explained giving you information deeper as different ways, you can find any reserve out there but there is no guide that similar with Networking Explained. It gives you thrill reading journey, its open up your own eyes about the thing in which happened in the world which is possibly can be happened around you. It is possible to bring everywhere like in area, café, or even in your method home by train. For anyone who is having difficulties in bringing the imprinted book maybe the form of Networking Explained in e-book can be your option.

**Kathryn Hill:**

Do you considered one of people who can't read satisfying if the sentence chained within the straightway, hold on guys that aren't like that. This Networking Explained book is readable simply by you who hate the straight word style. You will find the facts here are arrange for enjoyable reading through experience without leaving also decrease the knowledge that want to supply to you. The writer involving Networking Explained content conveys thinking easily to understand by most people. The printed and e-book are not different in the written content but it just different as it. So , do you still thinking Networking Explained is not loveable to be your top list reading book?

**Charles Frye:**

Do you really one of the book lovers? If so, do you ever feeling doubt when you find yourself in the book store? Aim to pick one book that you never know the inside because don't evaluate book by its include may doesn't work this is difficult job because you are frightened that the inside maybe not while fantastic as in the outside appearance likes. Maybe you answer is usually Networking Explained why because the great cover that make you consider with regards to the content will not disappoint an individual. The inside or content is fantastic as the outside or perhaps cover. Your reading 6th sense will directly show you to pick up this book.
