**Finite Mathematics with Applications In the Management, Natural, and Social Sciences (11th Edition)** By Margaret L. Lial, Thomas W. Hungerford, John P. Holcomb, Bernadette Mullins

**Finite Mathematics with Applications in the Management, Natural, and Social Sciences** presents sound mathematics in an understandable manner, proceeding from the familiar to new material and from concrete examples to general rules and formulas. The **Eleventh Edition** retains its focus on real-world problem solving, but has been refreshed with revised and added content, updated and new applications, fine-tuned and newly-integrated pedagogical devices, and enhanced exercise sets.

**Note:** You are purchasing a standalone product; MyMathLab does not come packaged with this content. MyMathLab is not a self-paced technology and should only be purchased when required by an instructor. If you would like to purchase *both* the physical text and MyMathLab, search for:

0321946111 / 9780321946119 Finite Mathematics with Applications In the Management, Natural, and Social Sciences Plus NEW MyMathLab with Pearson eText -- Access Card Package

Package consists of

0321431308 / 9780321431301 MyMathLab -- Glue-in Access Card

0321654064 / 9780321654069 MyMathLab Inside Star Sticker

0321931068 / 9780321931061 Finite Mathematics with Applications In the Management, Natural, and Social Sciences

## Editorial Review

### About the Author

**Marge Lial** (late) was always interested in math; it was her favorite subject in the first grade! Marge's intense desire to educate both her students and herself has inspired the writing of numerous best-selling textbooks. Marge, who received bachelor's and master's degrees from California State University at Sacramento, was affiliated with American River College. An avid reader and traveler, her travel experiences often find their way into her books as applications, exercise sets, and feature sets. Her interest in archeology lead to trips to various digs and ruin sites, producing some fascinating problems for her textbooks involving such topics as the building of Mayan pyramids and the acoustics of ancient ball courts in the Yucatan.

**Thomas W. Hungerford** received his bachelor's degree from Holy Cross and his Ph.D. from the University of Chicago. He taught for many years at the University of Washington (Seattle) before moving to Cleveland State University in 1980. He has been at St. Louis University since 2003. He has written a number of research articles in algebra and several in mathematics education. Dr. Hungerford is the author or coauthor of more than a dozen mathematics textbooks, ranging from high school to graduate level, several of which are published by Addison-Wesley. He is active in promoting the effective use of technology in mathematics instruction. Dr. Hungerford has also been a referee and reviewer for various mathematical journals and has served on National Science Foundation panels for selecting grant recipients.

**John P. Holcomb, Jr.** received his bachelor's degree from St. Bonaventure University and his Ph.D. from the University at Albany, State University of New York. He is professor and chair and frequently publishes with researchers in a variety of disciplines where he provides statistical analysis. Dr. Holcomb has also authored several papers in statistical education and is very active in the American Statistical Association and the Mathematical Association of America. He was named a Carnegie Scholar in 2000 by the Carnegie Foundation for the Advancement of Teaching and Learning and in 2003 received the Waller Award from the American Statistical Association for outstanding teaching of introductory statistics.

**Bernadette Mullins** received her bachelor's degree from Western Illinois University and her Ph.D. from the University of Iowa. She is currently professor of mathematics at Birmingham-Southern College in Birmingham, Alabama, where she arrived in 2000. She has published numerous articles in the fields of commutative ring theory and mathematics education. She has served as co-investigator for several National Science Foundation grants related to improving mathematics education. Dr. Mullins has won four awards for her excellence in teaching, including the Bob Whetstone award at BSC. Throughout her career, she has been active in Project NExT (New Experiences in Teaching) and the Mathematical Association of America, and was elected Alabama State Director of the MAA in 2013.

## Users Review

### From reader reviews:

#### **Cody Smith:**

Do you have favorite book? Should you have, what is your favorite's book? Book is very important thing for

us to be aware of everything in the world. Each publication has different aim or even goal; it means that book has different type. Some people feel enjoy to spend their a chance to read a book. They can be reading whatever they consider because their hobby is reading a book. Consider the person who don't like studying a book? Sometime, particular person feel need book when they found difficult problem as well as exercise. Well, probably you should have this Finite Mathematics with Applications In the Management, Natural, and Social Sciences (11th Edition).

### **Patricia Skinner:**

Reading a reserve tends to be new life style in this particular era globalization. With studying you can get a lot of information that will give you benefit in your life. Having book everyone in this world can share their idea. Guides can also inspire a lot of people. Lots of author can inspire their very own reader with their story or even their experience. Not only the storyplot that share in the textbooks. But also they write about the knowledge about something that you need example of this. How to get the good score toefl, or how to teach your kids, there are many kinds of book that you can get now. The authors on this planet always try to improve their expertise in writing, they also doing some study before they write for their book. One of them is this Finite Mathematics with Applications In the Management, Natural, and Social Sciences (11th Edition).

### **Dale Fain:**

Do you really one of the book lovers? If so, do you ever feeling doubt if you are in the book store? Attempt to pick one book that you just dont know the inside because don't evaluate book by its deal with may doesn't work is difficult job because you are afraid that the inside maybe not as fantastic as in the outside appear likes. Maybe you answer might be Finite Mathematics with Applications In the Management, Natural, and Social Sciences (11th Edition) why because the wonderful cover that make you consider with regards to the content will not disappoint anyone. The inside or content is actually fantastic as the outside as well as cover. Your reading sixth sense will directly make suggestions to pick up this book.

### **Frank Foushee:**

The book untitled Finite Mathematics with Applications In the Management, Natural, and Social Sciences (11th Edition) contain a lot of information on the item. The writer explains your girlfriend idea with easy technique. The language is very clear and understandable all the people, so do certainly not worry, you can easy to read it. The book was written by famous author. The author brings you in the new period of literary works. You can actually read this book because you can keep reading your smart phone, or gadget, so you can read the book within anywhere and anytime. In a situation you wish to purchase the e-book, you can open up their official web-site and order it. Have a nice read.
