If so, you may have Attention Deficit Hyperactivity Disorder (ADHD)—like an estimated 8 million adults in this country. The program includes practices such as sitting meditation, body awareness, thoughtful speaking and listening, development of self-acceptance, mindful self-coaching, cultivation of a balanced view of thoughts and emotions, and more. Dr. Zylowska educates readers about ADHD, helping them to understand how their ADHD brain works and how they can use mindful awareness to work with their challenges. She also explains how the mindful approach can be combined with other treatments, including medications, to boost self-improvement.
