Editorial Review

From [Booklist](#)

Starred Review When we last saw the Fyne sisters, witches all, in *The Sun Witch* (2004), Sophie was on the run with her husband, Kane, their baby daughter, and Kane's rebel troops. This book opens with imperial troops capturing Juliet and Isadora. Isadora uses her magic to kill the soldier closest to her to instill fear in her captors. Juliet is captured by Ryn, an Anwyn, who becomes a wolf at night and claims her as his life mate. More than that, she is part of an Anwyn prophecy, and she doesn't like it. Worst still, she is falling for her brave wolf-man, which is not a good thing, because the Fyne sisters are under a curse that kills the man they love before his thirtieth birthday. Isadora is imprisoned in the emperor's castle, her fate resting in the hands of the capricious and often sadistic queen. Like its predecessor, this is a cliff-hanger. Will Isadora use her magic for the forces of darkness? Will 29-year-old Kane survive his next birthday? Will Juliet accept her destiny? Will the evil emperor triumph? Book three won't be out fast enough. *Shelley Mosley*
